2. Jim Garrison was in to discuss several items.

a. Jim reported that arrangements have been made to place contracting negotiators in the Technical Services Division and NPIC. DD/S&T and the Office of Communications did not believe this was necessary for their offices.

b. Jim reported that the construction at [REDACTED] was almost ready to be accepted and felt that it would definitely be available in time for the Office of Training to meet its program requirements.

c. Jim reported that [REDACTED] has raised \$25,000 in unencumbered capital and that we will therefore proceed to contract with them on behalf of DD/S&T.

3. [REDACTED] requested that we arrange for a Congressman to address the Midcareer Course next week on "Congressional Relationships with CIA." (I obtained the Director's approval at the Executive Committee Meeting on 13 February, and later that day [REDACTED] arranged with Congressman Charles E. Bennett of Florida to make this address.)
